

Nanox Announces Fourth Quarter of 2023 Financial Results and Provides Business Update

April 1, 2024

Nanox Launches Nanox.ARC in United States with Installations Across Five States, Marking a Major Advancement in Medical Imaging

Management to host conference call and webcast Monday, April 1, 2024 at 8:30 AM ET

PETAH TIKVA, Israel, April 01, 2024 (GLOBE NEWSWIRE) -- NANO-X IMAGING LTD (NASDAQ: NNOX) ("**Nanox**" or the "**Company**"), an innovative medical imaging technology company, today announced results for the fourth quarter ended December 31, 2023 and provided a business update.

Fourth Quarter 2023 Highlights and Recent Developments:

- Generated \$2.4 million in revenue in the fourth quarter of 2023, compared to \$2.1 million in the fourth quarter of 2022.
- Made significant progress in US deployment, with multiple Nanox.ARC systems now deployed in 5 states.
- The Nanox.ARC has begun to scan patients in the U.S.
- passed all required tests in three states conducted by a licensed and certified physicists.
- Nanox.AI secured FDA clearance for HealthFLD, an advanced AI-based software empowering clinicians in assessment of fatty liver disease, and which may deliver advantages to the biopharmaceutical industry.
- InterMountain Health has signed on to deploy HealthCCS and was part of a Nuance bundle.
- Initial data readout from the ADOPT study, being held at Oxford University Hospital and other locations in the UK, demonstrated a sixfold increase in identifying previously undiagnosed patients with vertebral compression fracture using Nanox.AI's HealthVCF solution.
- Began multi-site clinical trial to study the Nanox.ARC use for chest indications.
- Continued to advance the process of securing CE-mark in the EU

"I am incredibly proud to announce another strong quarter and year for Nanox," said Erez Meltzer, Nanox Chief Executive Officer. "First and foremost, we achieved a pivotal milestone in fiscal year 2023, getting FDA clearance for the Nanox ARC systems and deploying them in the key US market. With significant regulatory successes in hand, Nanox is committed to accelerating the execution of our commercial infrastructure and strategic plans in the US. Our mission is to provide healthcare practices with a transformative advantage through the Nanox.ARC – an accessible, end-to-end, and cost-effective solution that not only provides advanced diagnostic imaging capabilities but also elevates overall patient care. Additionally, we are constantly advancing our AI solutions as we truly believe early detection, precise diagnoses, effective treatments and ongoing medical monitoring can be life-changing."

Financial results for three months ended December 31, 2023

For the three months ended December 31, 2023 (the "reported period"), the Company reported a net loss of \$10.2 million, compared to a net loss of \$52.8 million for the three months ended December 31, 2022 (which is referred as the "comparable period"), representing a decrease of \$42.6 million. The decrease was largely due to a goodwill impairment of \$36.5 million, an accrual of \$8 million in connection with the settlement of the class action which were recorded in the comparable period, other income of \$3.0 million recorded from the D&O insurance carrier under the settlement agreement in connection with the class action lawsuits and a decrease of \$4.4 million in general and administrative expenses offset by a decrease in the change in contingent earnout liability of \$9.1 million.

The Company reported revenue of \$2.4 million in the reported period, compared to \$2.1 million in the comparable period. During the reported period, the Company generated revenue through teleradiology services, the sales and deployment of its imaging systems and AI solutions.

The Company's gross loss during the reported period totaled \$1.7 million (gross loss margin of (72%)) on a GAAP basis, as compared to a gross loss of \$1.7 million (gross loss margin of (82%)) in the comparable period. Non-GAAP gross profit for the reported period was \$0.9 million (gross profit margin of approximately 36%), as compared to \$0.8 million (gross profit margin of approximately 39%) in the comparable period.

The Company's revenue from teleradiology services for the reported period was \$2.3 million, as compared to revenue of \$2.1 million in the comparable period. The increase in the Company's revenue from teleradiology services was mainly attributable to increase in the facilities in the reported period as compared to comparable period. The Company's GAAP gross profit from teleradiology services for the reported period was \$0.3 million (gross profit margin of approximately 14%), as compared to \$0.3 million (gross profit margin of approximately 13%) in the comparable period. Non-GAAP gross profit of the Company's teleradiology services for the reported period was \$0.9 million (gross profit margin of approximately

38%) as compared to \$0.8 million (gross profit margin of approximately 40%) in the comparable period. The decreases in the gross profit margins on a non-GAAP basis was attributable mainly to an increase in the cost of the engaged radiologists due to increases in reading rates and incentive payments which the Company paid to radiologists to engage during overnight and weekend shifts.

As mentioned above, during the reported period the Company generated revenue through the sales and deployment of its imaging systems which amounted to \$17 thousand for the reported period, with a gross loss of \$44 thousand on a GAAP and non-GAAP basis. The revenue stems from the sale and deployment of our 2D systems in Africa.

The Company's revenue from its AI solutions for the reported period was \$84 thousand with a gross loss of \$2.0 million on a GAAP basis, as compared to revenue of \$63 thousand with a gross loss of \$2.0 million in the comparable period. Non-GAAP gross profit of the Company's AI solutions for the reported period was \$21 thousand, as compared to a profit of \$4 thousand on a non-GAAP basis in the comparable period. During the fourth quarter of 2023, Nanox AI continued to complete pilot programs with marketplaces, marketplace costumers and health organizations in anticipation of full deployment of its products. During the first quarter of 2024, Nanox AI sold its HealthCCS cardiac solution to a second IDN in the U.S for an annual fee of \$ 8.5 thousand during the first year of engagement and annual fee of \$75 thousand from the first anniversary of the engagement and after.

Research and development expenses, net for the reported period were \$6.8 million, as compared to \$7.1 million in the comparable period. The decrease of \$0.3 million was mainly due to a decrease in the cost of the Company's development expenses of the Nanox.ARC system in the amount of \$0.4 million.

Sales and marketing expenses for the reported period were \$1.0 million, as compared to \$1.5 million in the comparable period. The decrease of \$0.5 million was mainly due to a decrease in the Company's marketing expenses and a decrease in share-based compensation expense.

General and administrative expenses for the reported period were \$3.8 million, as compared to \$8.2 million in the comparable period. The decrease of \$4.4 million was mainly due to a decrease in legal expenses in the amount of \$4.2 million, largely as a result of the finalization of the SEC investigation and reaching a settlement of the class action litigation and the receipt of \$2 million from the Company's directors' and officers' liability insurance carrier during the reported period under the Company's policy and the settlement agreement.

There was no Goodwill impairment for the reported period as compared to \$36.5 million in the comparable period, which was resulted from the goodwill impairment related to the Nanox.AI reporting unit.

Other income was \$2.7 million for the reported period, as compared to other expenses that was \$7.8 million for the comparable period. Other expenses in the comparable period included an accrual for settlement in connection with the class action lawsuit against the Company in the amount of \$8 million, which was reversed by the amount of \$3 million in the reported period since the Company received that amount from its D&O insurance carrier under the settlement agreement in connection with the class action lawsuits against the Company.

Non-GAAP net loss attributable to ordinary shares for the reported period was \$10.4 million, as compared to \$9.9 million in the comparable period. The increase of \$0.5 million was mainly due to a decrease in our tax income of \$1.0 million and increase in the non-GAAP other expenses of \$0.5 million which was mitigated by an increase of \$0.5 million in our interest income, a decrease of \$0.3 million in our non-GAAP research and development expenses and a decrease of \$0.3 million in our non-GAAP sales and marketing expenses.

Non-GAAP gross profit for the reported period was \$0.9 million, as compared to \$0.8 million in the comparable period. Non-GAAP research and development expenses for the reported period were \$5.9 million, as compared to \$6.2 million in the comparable period. Non-GAAP sales and marketing expenses for the reported period were \$0.8 million, as compared to \$1.1 million in the comparable period. Non-GAAP general and administrative expenses for the reported period and the comparable period were \$4.7 million.

The difference between the GAAP and non-GAAP financial measures above is mainly attributable to amortization of intangible assets, goodwill impairment, share-based compensation, change in contingent earnout liability, legal fees in connection with the class-action litigation and the SEC investigation, accrual in connection with the settlement of the SEC investigation and class action. A reconciliation between GAAP and non-GAAP financial measures for the three and twelve-month periods ended December 31, 2023, and 2022 is provided in the financial results that are part of this press release.

Liquidity and Capital Resources

As of December 31, 2023, the Company had total cash, cash equivalents, restricted deposits and marketable securities of \$82.8 million, compared to \$102.9 million as of December 31, 2022.

The decrease in the Company's cash, cash equivalents, restricted deposits and marketable securities of \$20.1 million during the twelve-month period ended December 31, 2023, was primarily due to negative cash flow from operations of \$44.8 million and the purchase of property and equipment of \$3.3 million, which was offset by cash flow from financing of \$27.3 million largely from the capital raise that the Company consummated during the third quarter of 2023.

Other Assets

As of December 31, 2023, the Company had property and equipment of \$42.3 million as compared to \$43.5 million as of December 31, 2022. The decrease was mainly attributed to period depreciation.

As of December 31, 2023, the Company had intangible assets and goodwill of \$80.6 million as compared to \$98.6 million as of December 31, 2022. The decrease was attributable to the periodic amortization of intangible assets in the amount of \$10.6 million and goodwill impairment of \$7.4 million.

Shareholders' Equity

As of December 31, 2023, the Company had approximately 57.8 million shares outstanding as compared to 55.1 million shares outstanding as of December 31, 2022. The increase was mainly due to the issuance of 2,142,858 of the Company's ordinary shares in consideration of net proceeds of \$27.1 million, the issuance of 286,141 shares upon the exercise of options and RSUs, which generated, in the aggregate, approximately \$0.9 million in gross proceeds to the Company and the issuance of 255,392 ordinary shares to the former stockholders of USARAD, in consideration for the achievement of certain milestones in connection with the first earn-out period, as defined in the USARAD Stock Purchase Agreement and a global

settlement of both parties' performance obligations under the USARAD Stock Purchase Agreement.

Conference Call and Webcast Details

Monday, April 1, 2024 @ 8:30am ET

Individuals interested in listening to the conference call may do so by joining the live webcast on the Investors section of the Nanox website under Events and Presentations. Alternatively, individuals can register online to receive a dial-in number and personalized PIN to participate in the call. An archived webcast of the event will be available for replay following the event.

About Nanox:

Nanox (NASDAQ: NNOX) is focused on applying its proprietary medical imaging technology and solutions to make diagnostic medicine more accessible and affordable across the globe. Nanox's vision is to increase access, reduce costs and enhance the efficiency of routine medical imaging technology and processes, in order to improve early detection and treatment, which Nanox believes is key to helping people achieve better health outcomes, and, ultimately, to save lives. The Nanox ecosystem includes Nanox.ARC— a multi-source Digital Tomosynthesis system that is cost-effective and user-friendly; an AI-based suite of algorithms that augment the readings of routine CT imaging to highlight early signs often related to chronic disease (Nanox.AI); a cloud-based infrastructure (Nanox.CLOUD); and a proprietary decentralized marketplace, through Nanox's subsidiary, USARAD Holdings Inc., that provides remote access to radiology and cardiology experts; and a comprehensive teleradiology services platform (Nanox.MARKETPLACE). Together, Nanox's products and services create a worldwide, innovative, and comprehensive solution that connects medical imaging solutions, from scan to diagnosis. For more information, please visit www.nanox.vision.

Forward-Looking Statements:

This press release may contain forward-looking statements that are subject to risks and uncertainties. All statements that are not historical facts contained in this press release are forward-looking statements. Such statements include, but are not limited to, those relating to the initiation, timing, progress and results of the Company's research and development, manufacturing, and commercialization activities with respect to its X-ray source technology and the Nanox.ARC, the ability to realize the expected benefits of its recent acquisitions and the projected business prospects of the Company and the acquired companies. In some cases, you can identify forward-looking statements by terminology such as "can," "might," "believe," "may," "estimate," "continue," "anticipate," "intend," "should," "plan," "should," "could," "expect," "predict," "potential," or the negative of these terms or other similar expressions. Forward-looking statements are based on information the Company has when those statements are made or management's good faith belief as of that time with respect to future events and are subject to risks and uncertainties that could cause actual performance or results to differ materially from those expressed in or suggested by the forward-looking statements. Factors that could cause actual results to differ materially from those currently anticipated include: risks related to (i) Nanox's ability to continue to develop of the Nanox imaging system; (ii) Nanox's ability to successfully demonstrate the feasibility of its technology for commercial applications; (iii) Nanox's expectations regarding the necessity of, timing of filing for, and receipt and maintenance of, regulatory clearances or approvals regarding its technology, the Nanox.ARC and Nanox.CLOUD from regulatory agencies worldwide and its ongoing compliance with applicable quality standards and regulatory requirements; (iv) Nanox's ability to realize the anticipated benefits of acquisitions, which may be affected by, among other things, competition, brand recognition, the ability of the acquired companies to grow and manage growth profitably and retain their key employees; (v) Nanox's ability to enter into and maintain commercially reasonable arrangements with third-party manufacturers and suppliers to manufacture the Nanox.ARC; (vi) the market acceptance of the Nanox imaging system and the proposed pay-per-scan business model; (vii) Nanox's expectations regarding collaborations with third-parties and their potential benefits; and (viii) Nanox's ability to conduct business globally; (ix) changes in global, political, economic, business, competitive, market and regulatory forces, including the continuation and escalation of the military conflicts in Israel; (x) the costs incurred with respect to and the outcome of the securities class action litigation and the civil litigation Nanox is currently subject to and any similar or other claims and litigation it may be subject to in the future; and (xi) risks related to business interruptions resulting from the COVID-19 pandemic or similar public health crises, among other things.

For a discussion of other risks and uncertainties, and other important factors, any of which could cause Nanox's actual results to differ from those contained in the Forward-Looking Statements, see the section titled "Risk Factors" in Nanox's Annual Report on Form 20-F for the year ended December 31, 2022, and subsequent filings with the U.S. Securities and Exchange Commission. The reader should not place undue reliance on any forward-looking statements included in this press release.

Except as required by law, Nanox undertakes no obligation to update publicly any forward-looking statements after the date of this press release to conform these statements to actual results or to changes in the Company's expectations.

Non-GAAP Financial Measures

This press release includes information about certain financial measures that are not prepared in accordance with generally accepted accounting principles in the United States ("GAAP"), including non-GAAP net loss attributable to ordinary shares, non-GAAP cost of revenue, non-GAAP gross profit, non-GAAP gross profit margin, non-GAAP research and development expenses, non-GAAP sales and marketing expenses, non-GAAP general and administrative expenses, non-GAAP other expenses and non-GAAP basic and diluted loss per share. These non-GAAP measures are not based on any standardized methodology prescribed by GAAP and are not necessarily comparable to similar measures presented by other companies. These non-GAAP measures are adjusted for (as applicable) amortization of intangible assets, goodwill impairment, share-based compensation expenses, change in contingent earnout liability, legal fees in connection with class-action litigation and the SEC investigation, accrual in connection with the settlement of the SEC investigation and class-action. The Company's management and board of directors utilize these non-GAAP financial measures to evaluate the Company's performance. The Company provides these non-GAAP measures of the Company's performance to investors because management believes that these non-GAAP financial measures, when viewed with the Company's results under GAAP and the accompanying reconciliations, are useful in identifying underlying trends in ongoing operations. However, these non-GAAP measures are not measures of financial performance under GAAP and, accordingly, should not be considered as alternatives to GAAP measures as indicators of operating performance. Further, these non-GAAP measures should not be considered measures of the Company's liquidity. A reconciliation of certain GAAP to non-GAAP financial measures has been provided in the tables included in this press release.

**UNAUDITED RECONCILIATION OF GAAP AND NON-GAAP RESULTS
(U.S. dollars in thousands (except per share data))**

Use of non-GAAP Financial Measures

The unaudited condensed consolidated financial information is prepared in conformity with GAAP. The Company uses information about certain financial measures that are not prepared in accordance with GAAP, including non-GAAP net loss attributable to ordinary shares, non-GAAP cost of revenue, non-GAAP gross profit, non-GAAP gross profit margin, non-GAAP research and development expenses, non-GAAP sales and marketing expenses, non-GAAP general and administrative expenses, non-GAAP other expenses (income) and non-GAAP basic and diluted loss per share. These non-GAAP measures are adjusted for (as applicable) amortization of intangible assets, goodwill impairment, share-based compensation expenses, change in contingent earnout liability, legal fees in connection with the class-action litigation and the SEC investigation and accruals in connection with the settlement of the SEC investigation and class action. The Company believes that separate analysis and exclusion of the one-off or non-cash impact of the above reconciling items (as applicable) adds clarity to the constituent parts of its performance. The Company reviews these non-GAAP financial measures together with GAAP financial measures to obtain a better understanding of its operating performance. It uses the non-GAAP financial measures for planning, forecasting, and measuring results against the forecast. The Company believes that the non-GAAP financial measures are useful supplemental information for investors and analysts to assess its operating performance. However, these non-GAAP measures are not measures of financial performance under GAAP and, accordingly, should not be considered as alternatives to GAAP measures as indicators of operating performance.

Reconciliation of GAAP net loss attributable to ordinary shares to non-GAAP net loss attributable to ordinary shares and non-GAAP basic and diluted loss per share (U.S. dollars in thousands)

	Twelve Months Ended		Three Months Ended	
	December 31,		December 31,	
	2023	2022	2023	2022
GAAP net loss attributable to ordinary shares	60,776	113,243	10,248	52,837
Non-GAAP adjustments:				
Less: Class-action litigation and SEC investigation	2,504	7,730	(1,699)	2,505
Less: Amortization of intangible assets	10,612	10,607	2,653	2,649
