NANO-X IMAGING LTD (the "**Company**") announces that on January 12, 2022 it has submitted with the Food and Drug Administration ("**FDA**") a Q-submission for the second version of the Company's multi-source Nanox.ARC 3-D tomosynthesis imaging system, that produces images of human anatomies. This version of the Nanox.ARC is an improved and enhanced version that was designed, among other things, to address certain deficiencies raised by FDA during their review of the earlier submission from June 2021, which was withdrawn to enable the Q-submission.
